

Do you believe in god and does u pray? If so why?

Gradually....Yes I do believe in God and do prayers regularly. I also believe that god answers us when we pray with true heart without doubting him. I believe him because i love him, for he is the only GOD who died for my sins, when i pray there will be different kind of joy in my heart that can't be described in words. For his love is eternal. I think it help me to purify my soul through it and increase confidence in me.

Initially I was considering humanity but when I got mature i believe in god...i find this as a mean to increase my self confidence. I don't think any person got such a huge confidence in one self. So for that we believe in something.

If so we got a belief that GOD something we belief will save us.

GOD only power that keeps me going steady in life

I have respect for god but I also believe in hard work because god never says always sit in front of me. GOD say "do hard work do not bother about result" – Shri Krishna

I believe in supreme force as god who is responsible for this universe moving round the clock. We pray to god as we know that only god knows what is good for us.

BELIVE IN GOD...WITHOUT THAT YOU WON'T GET PEACE IN YOUR LIFE
